

YOUR FULL SEASON REPORT

Soft Autumn

Warm, soft, medium depth.

Your colouring is warm but gentle: nothing about you is stark or icy. Muted, earthy shades like clay, olive and camel melt into your skin, while harsh black and neon brights sit on top of it. Think of a hazy late-September afternoon.

Colours to avoid

Jet Black

Too harsh; it hardens your soft features and deepens shadows.

Optic White

Stark white glares next to warm, muted skin.

Hot Pink

Cool, electric pink overpowers your gentle colouring.

Cobalt Blue

Icy saturation makes skin look sallow by contrast.

Bright Silver

Cool metallic sheen drains warmth from your face.

Neon Lime

Clear, acidic brights shout louder than you do.

Styling tips

1. Swap black for espresso, cocoa or deep olive: same polish, far softer on you.
2. Keep contrast low: pair colours that sit close together, like camel with oat or olive with sage.
3. Choose brushed or antique gold over shiny, cool-toned metals.
4. Matte and textured fabrics (suede, wool, linen, corduroy) flatter you more than high-shine satin.
5. Wear your strongest palette colour near your face: a scarf or top in clay, teal smoke or olive does the most work.
